NOW, THEREFORE, this 7th day of March, 1979, the parties hereto, intending to be mutually bound by the covenants set forth below, hereby agree and covenant as follows:

ORDER

1. Effective upon execution and approval of this Consent Decree and Agreement, the Department shall allow Wiseman to begin operation of the new waste oil processing unit. This agreement by the Department is granted solely because of the difficulty, in this case, of designing adequate treatment facilities without first obtaining design data during actual unit operation. This agreement by the Department may be revoked at any time upon reasonable determination by the Department that Wiseman has not complied with any and all obligations of this Consent Decree and Adjudication.
2. Wiseman shall notify the Department of the date of start-up of the said new unit. After a shakedown period not to exceed 30 days, Wiseman shall notify the Department that the unit is in actual operation and that steps are being taken to obtain the necessary design data. This notification to the Department shall be in writing and shall be submitted to Pennsylvania Department of Environmental Resources, Bureau of Water Quality Management, Operations Section, Room 600 Kossman Building, 100 Forbes Avenue, Pittsburgh, Pennsylvania 15222.
3. Within 60 days after the end of the shakedown period, described in Paragraph 2 above, and, in any event, no later than 120 days after execution and approval of this Consent Decree and Agreement, Wiseman shall submit to the Department a complete Part I Permit Application. This application shall be submitted to the Bureau of Water Quality Management, Planning Section, at the address stated in Paragraph 2 above.
4. The Department shall review the aforesaid Part I Permit Application and within 60 days of the Department's issuance of a Part I Permit, Wiseman shall submit to the Department an industrial waste permit application (Part II Permit Application). Such application will include a complete and detailed Pollution Incident Prevention Plan for the entire plant. This application shall be submitted to Chief, Facilities Section, at the address stated in Paragraph 2 above.
5. Within 120 days after the Department issues the Part II Permit to Wiseman, Wiseman shall construct and place into operation all industrial waste treatment facilities required by said industrial wastes permit. Wiseman shall notify the Department in writing of the date said treatment facilities are placed

in operation. This notification shall be sent to the address stated in Paragraph 2 above.

6.a. Within 30 days of the date the treatment facilities are placed in operation, Wiseman shall be in compliance with its industrial wastes permit, the Rules and Regulations of the Department, and the Clean Streams Law, supra.

b. Wiseman shall notify the Department at the address stated in Paragraph 2 above when it comes into compliance as aforesaid, and the Department shall, within a reasonable time of receipt of Wiseman's notice, but in no event later than one-hundred twenty (120) days from the date of receipt, make a determination whether Wiseman is in compliance. Provided, however, that in the event the Department makes no determination within the aforesaid one-hundred twenty (120) day period, Wiseman shall be deemed to be in compliance for purposes of this Consent Decree and particularly Paragraph 15 hereof.

7. Within 10 days of execution and approval of this Consent Decree and Agreement, Wiseman shall submit to the Department its plan for the abatement of all groundwater pollution on its property. Said report shall include, but not be limited to, the effective installation and maintenance of an oil boom in Montour Run to collect oil leaching out of the stream bank and the elimination of its lagoon located at the southwest end of the property. Said plan shall be submitted to the address stated in Paragraph 2 above.

8. The Department shall respond in writing to said plan for control of groundwater pollution within 30 days of receipt thereof.

9. Within 60 days of the Department granting its approval for Wiseman's groundwater pollution abatement plan, Wiseman shall implement and put into operation all parts of said plan.

10. By September 1, 1979 or within a reasonable period thereafter, the Department shall evaluate the effectiveness of Wiseman's program for abatement of groundwater pollution from its property to determine if the oil boom needs to be maintained and if other measures to control groundwater pollution are necessary.

11. After the aforesaid evaluation, and upon notification by the Department, Wiseman shall take any and all reasonable additional steps deemed necessary by the Department for abatement of groundwater pollution from its property.

12. In settlement of all past violations of the Clean Streams Law, supra, and the Rules and Regulations of the Department promulgated pursuant thereto,

Wiseman shall pay the sum of two thousand dollars (\$2,000.00) to the Department within 10 days of the execution and approval of this Consent Decree and Agreement by means of a check made payable to the "Commonwealth of Pennsylvania" and delivered to Chief, Compliance and Administration Section, at the address stated in Paragraph 2 above.

13. Commencing with the month of the date of execution and approval of this document, Wiseman shall pay the sum of five hundred dollars (\$500.00) per month for each month or part thereof until it has given notice, and in fact has achieved compliance with the provisions of Paragraph 6 above. Each monthly payment shall be paid within ten (10) days following the end of each calendar month and shall be submitted according to the procedure stated in Paragraph 12 above.

14. If Wiseman fails to comply with Paragraph 6 above, then Wiseman shall upon written notice from the Department immediately pay the sum of ten thousand dollars (\$10,000.00) to the Department according to the procedure stated in paragraph 12 above.

15. If Wiseman fully complies with all the provisions and requirements of Paragraphs 1 through 6 herein within the times specified, the Department shall not institute any action at law or equity, including an action for civil penalties, for any violations of the Clean Streams Law by Wiseman or American Tallow and their officers and agents that occurred prior to the execution of this Consent Decree and Agreement except for those violations resulting in contaminated groundwater that are described in WHEREAS clauses K through L herein. For these aforesaid violations, described in clauses K through L herein, the Department shall not institute any action at law or equity if Wiseman fully complies with all of the provisions and requirements of Paragraphs 10 and 11 herein, and the Department retains its right to institute legal actions for prior violations only until the requirements of Paragraphs 10 and 11 herein are fully complied with. In the event Wiseman fully complies with all the provisions and requirements of this Consent Decree and Agreement, it shall become void and of no effect. However, if Wiseman fails to comply with all the provisions and requirements hereof in a timely manner, the Department may, subject to the provisions hereof, institute any appropriate action based upon any violation, including violations alleged in the Complaint for Civil Penalties filed herein, whether or not said violation predates Wiseman's failure to fully comply with this Consent Decree and Agreement. If Wiseman fails to comply with all the provisions hereof in a timely

manner, it waives any and all applicable statutes of limitations for its violations of the Clean Streams Law described in the WHEREAS clauses herein and alleged in the Civil Penalties Complaint, EHB No. 78-077-CP, that have occurred prior to the date of execution and approval of this Consent Decree and Agreement.

In the event that Wiseman fails to comply with the provisions hereof and the Department institutes an action to recover civil penalties, any and all sums of money paid by Wiseman hereunder to the Department pursuant to Paragraphs 12, 13 and 14 shall be a credit against any civil penalties the Department may recover for violations that predate Wiseman's failure to comply herewith.

16. Nothing contained in this agreement shall be construed to imply that the Department waives its right to institute enforcement action for any violations of the statutes, Rules and Regulations of the Department that may result from Wiseman's operations after the date of execution and approval hereof, except for those violations described in the WHEREAS clauses hereof and except for any noncompliance with the statutes, Rules and Regulations of the Department expressly permitted by the terms and conditions of this Consent Decree. The Department specifically retains the right during the period while this agreement is in effect to institute enforcement action for any pollution incidents or spills.

17. Force Majeure:

If Wiseman is obstructed or delayed in the implementation of the compliance schedule specified in Paragraphs 1 through 14 herein by (1) acts of God, fire, flood, lightning, cyclone or other unavoidable casualty; or (2) strikes, work stoppages or slowdowns; or (3) delays by vendors, contractors or suppliers due to (1) shortages of material, energy or equipment, or (ii) delays in delivery of materials, energy or equipment for which Wiseman cannot substitute at reasonable cost within a reasonable time; (4) unavoidable start-up or break-in equipment problems at the new facility; and (5) delays and failures by government agencies, including the Department, to take timely action wherever required, including considering and granting necessary approvals, and which problems cannot be solved by the installation of substitute equipment at reasonable cost within a reasonable time, then Wiseman shall be excused from fulfilling such obligations affected by the delay for a period of time equal to the period of time caused by

delay, provided, however, that the following requirements are met: (i) By letter postmarked on or before the last day of each month, Wiseman shall report any delay incurred during said month due to a force majeure event; (ii) Wiseman shall submit copies of any records, papers or correspondence, in its possession or available to it, substantiating the cause of delay; (iii) Wiseman shall formally request an extension in writing at any time prior to a performance date, but only for causes of delay which were timely reported to the Department pursuant to this Paragraph. Such a request shall be made in writing to the Regional Water Quality Manager at the address stated in Paragraph 2 above. The Department shall determine whether to grant such request for delay and for how long and shall inform Wiseman of its determination within 30 days of receipt of the request. If Wiseman is aggrieved by this determination it may petition to the Environmental Hearing Board; after cause having been shown and documented to the satisfaction of the Board that the circumstances for delay are caused solely by circumstances beyond the control of Wiseman, and that Wiseman has made a substantial effort to limit or remedy the delay, the Board may extend the date or dates for performance equal to the period of time of the delay. In such instances, Wiseman shall have the burden of proof. The time involved in adjudicating a request for delay under the procedure set forth herein shall not constitute a delay beyond the control of Wiseman. In the event the Department fails to make a determination and inform Wiseman thereof within thirty (30) days of receipt of request for an extension, such request shall be deemed granted. Failure by Wiseman to comply with the requirements of this Paragraph specifically and in a timely fashion shall render this Paragraph null and of no effect.

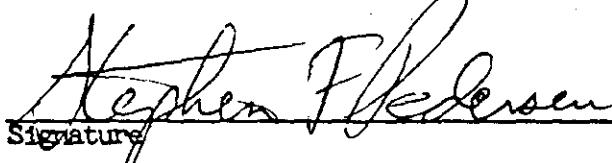

18. Any breach of the Agreement on the part of Wiseman shall be deemed a material breach and, in the event of any such breach, the Department may, at its option, in addition to the remedies prescribed herein, proceed with any action at law or in equity to bring about compliance with the Clean Streams Law, supra, and the Rules and Regulations of the Department.

19. It is the intent of the parties herein that the clauses hereof are severable and should any part of the clauses herein be declared by a court of law to be invalid and unenforceable, the other clauses shall remain in full force and effect as between the parties, their successors and assigns.

20. It is agreed that any change, additions or amendments to this Consent Decree and Agreement shall be set out in writing as an amendment and signed by the parties hereto.

21. The Department agrees that execution of this Consent Decree and Agreement and its approval by the Environmental Hearing Board shall constitute termination and dismissal of its Civil Penalties Complaint against Wiseman and American Tallow which is before the Environmental Hearing Board at Docket No. 78-077-CP. By separate stipulation filed herein, the parties have agreed that Robert Wiseman and Joseph Wiseman are dismissed as parties in the aforementioned Civil Penalties action. The Department retains its right to re-institute this action in the event that Wiseman does not fully comply with any and all obligations of this Consent Decree and Agreement.
